

Assignment 1: Front-End Technology

You are required to design and develop a responsive website for the **Computer Science & Engineering (CSE) Department** using HTML5, CSS3, JavaScript, and a responsive front-end framework such as Bootstrap. The website should include essential sections such as *Home, About Us, Faculty, Programs, Research, Students, and Contact Us*, ensuring proper navigation and mobile-friendly design.

Demo Design:

- **CSE BU:** <https://apps.piit.us/barishal-university/v2/department/department-of-computer-science-and-engineering>
- **Stanford Computer Science** – <https://cs.stanford.edu/>
- **University of Cambridge Computer Lab** – <https://www.cst.cam.ac.uk/>
- **CSE, University at Buffalo:** <https://engineering.buffalo.edu/computer-science-engineering.html>
- **CSE BUET:** <https://cse.buet.ac.bd/>

Submission Deadline: 20 August 2025, 11.59pm.

Submission Procedure: Host your website on **GitHub Pages** or **Netlify** and submit both the live link and code link via the following Google form.
